

BORDER WINTER WATER DELIVERIES

15 May 2009

State Water plans to deliver winter flows into the Border Rivers in a block release strategy to maximise available water resources.

As a result of a customer survey, it is anticipated this release will occur in August and will satisfy winter irrigation demand from below the Dumaresq and Macintyre Junction.

However, if this does not satisfy your winter requirements, you are advised to contact Roger Hunt at State Water on 07 4671 6130 to discuss.

Customers on the Dumaresq are advised to provide additional lag time when placing orders over the winter period to allow grouping of orders to maximise efficiency of deliveries.

State Water wishes to thank users for their cooperation and looks forward to helping achieve the greatest productivity from the available water.

State Water also wishes to advise the new **Goondiwindi office fax number is 07 4671 3915.**
